## SKILLS

- C# developer
- C++ developer
- Java developer
- Html and javascript developer
- AJAX, JQUERY and CSS knowledge
- Visual Basic
- VBScript
- ASP.NET MVC
- Researcher
- Fast learner
- C#, sql, VB.NET and .net specialist.
- Advanced knowledge of PHP.
- Exceptional time management
- Front-end web languages
- Web application development

## PROJECTS

C#, ASP.NET, Navigation Application

BSC Information Technology, Pearson Institute of higher Education.

- Built a navigation app like Uber eats driver app
- Used Visual studio and .net framework 4.0
- Xamarin Forms
- C#.net coding
- Back-end sql database.

PHP Project

BSC Information Technology, Pearson Institute of higher Education.

- Built an e-commerce website that sells clothes
- Used PHP, HTML, CSS and javascript
- Used Ajax/jQuery to simplify the coding and keep track of visitors.
- Use of Apache webserver to test and debug.

Android Studio Project

BSC Information Technology, Pearson Institute of higher Education.

- Built a banking app using android studio
- Used java as my language
- Used sqlite as my database.

## ACTIVITIES

I spend most of my time coding, in fact I like calling myself a coder because it challenges me and forces me to learn new things . Of course I like doing other things pertaining I.T during my free time as well, in fact I have a couple of repositories on Github to showcase all my projects. I am a hard worker and fast learner, I will be of good value to your organization.
